OBJECTIVE

Motivated ECE student passionate about Embedded Systems, IoT, Robotics, and Automation with strong problem-solving skills and interest in developing innovative technology solutions.

CORE SKILLS

- Embedded Systems
- IoT
- Robotics
- Automation Systems

TECHNICAL SKILLS

Programming:

- Python
- C
- MATLAB

TOOLS

- Arduino
- MS Office
- Hardware Troubleshooting

PROJECT EXPERIENCE

Smart Commercial Automation System

- Smart Automation for Commercial Purposes Developed automation-based solutions for commercial applications.
- Improved efficiency using smart monitoring and automation concepts.

IoT & Robotics Projects

- *Smart Parking System Using IoT*
- *Radar Detection System*
- *Pick and Place Robot*
- *Object Detection Robot*
- *Smart Display Board Using Arduino*

Portfolio Website

- *Designed a responsive personal portfolio using HTML, CSS, JavaScript*
- *Showcased projects and technical skills with mobile-friendly layout*

EDUCATION

Bachelor of Engineering in ECE | 2023-2027

Arunai Engineering College (An Autonomous Institution), Tiruvannamalai-606 603.

CGPA: 7.72

INTERNSHIP & CERTIFICATIONS

Virtual Tech Services | Dec 2025- 2026

- Embedded Systems & IoT Intern
- Worked on IoT, robotics and Arduino-based projects and Gained practical exposure to embedded systems and automation technologies.

Hyundai Motor India Limited | July 2025

- Learned industrial automation, automation workflows, engine maintenance, and safety procedures.

LANGUAGES

Tamil: Native Proficiency

English: Professional Proficiency
